

Being involved means be there. For our communities, for our members, for each other.

At Ozarks Electric Cooperative, we care about our communities and the members we serve.

We also take great pride in the fact that we are your friends and neighbors.

And through Ozarks Cares, we're helping build and maintain strong communities, so that we help improve the lives of our members.

We're not just an electric company.

We're a cooperative.

Your cooperative.
